### **Examiner's Amendment**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel Pereira on October 29, 2010.

The application has been amended as follows:

Claim 25 has been deleted.

On the first page of the specification, after the title, the following sentence has been inserted: - This application is a national stage entry of International Application No. PCT/EP03/07709, filed July 16, 2003, which in turn claims priority to German application 10233521.4 filed July 23, 2002.- -

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

Claims 1, 5, 7-9, 16, 19, 10, 21, 23, 24, 26, 27, and 29 are allowable over the prior art.

The closest prior art is Mack et al (US 6,500,883) in view of (a) Otaki et al (US 6,482,489), (b) Saeki et al (US 4,824,905) and (c) Downey (US 3,880,953) or Korpman (US 4,136,071), as noted in the Final rejection mailed 4/29/2010. The claims are distinguished from said combination of references because the claimed layers are coextensive and because said combination does not teach the claimed compositions of the respective layers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
